ABOUT ME

I'm a full-stack web developer from California, passionate about creating accessible, beautiful apps on the web. Though I have years of experience, new tech excites me, and I'm always working on a project to hone new skills.

SKILLS

TYPESCRIPT	**GO**
REACT	**PYTHON**
RUBY ON RAILS	**JAVA**
TAILWINDCSS	**POSTGRESQL**
SVELTE	**DOCKER**

EXPERIENCE

2023 — **Full-Stack Intern** — *PrescientAI*
Created backend endpoints, automated background jobs, routes, and database structures for a professional SaaS product. Designed and implemented intuitive and beautiful front-end interfaces. Tested and pushed multiple features to production in an agile development workflow.
`react / ruby on rails / postgres`

2021-2022 — **Coding Instructor** — *Juni Learning*
Taught middle school and high school students coding skills, such as Java, according to Juni curriculum. Conveyed complex programming concepts in simple, easy to understand ways to students. Quickly adapted to and became proficient with unfamiliar curriculum material.
`java / python`

PERSONAL PROJECTS

2023 — **Art website** — *Live Link - Github*
Fully responsive website for showcasing my illustration hobby. Utilizes many custom interactive components, such as drawers, menus, and carousels, all while maintaining high speed and accessibility.
`next.js / tailwindCSS / swiper.js / cloudinary`

2023 — **Nonprofit Website** — *Live Link*
Developed a website for a nonprofit organization I volunteered at. Modeled after a GoDaddy template, this fully responsive site was coded from scratch in GatsbyJS.
`react / tailwindCSS`

2023 — **Font Randomizer** — *Live Link - Github*
A VSCode extension I developed which randomizes the client's editor font upon application startup and at set regular intervals. Recieved positive reviews and 100s of downloads.
`typescript`

EDUCATION

2020 – 2024
3.84 GPA — **Bachelor of Science, Computer Science** — *Brandeis University*
Justice Brandeis Scholarship recipient. Dean's list student.
